

# Humanising Technology

## Transforming Lives

easyRights works with  
(im)migrants, NGOs  
and public  
administrations to  
harness the power of  
new technology to  
solve social and  
economic  
(im)migration  
integration challenges

[easyrights.eu](https://easyrights.eu)

easyRights is a research and innovation project which empowers service administrators with the digital tools they need to more easily help the newly arrived access services.

Follow the easyRights journey by signing up for newsletters and be among the first to receive access to tools, videos and policy recommendations. easyRights results will help every public administration across Europe to achieve faster integration success for (im)migrants which benefits society as a whole.

Thank you.
