

### Exploitation and Sustainability of the IMMERSE Platform

Elizabeth Kassinis (Caritas) and Florian Huber (SYNYO)

### www.immerse-eu.com

#### **ABOUT**

The IMMERSE platform provides information and personalized services to migrants living in Italy, Spain and Cyprus. IMMERSE aims to improve the overall experience of migrants as well as ease their access to vital parts of everyday life through providing information on topics like accessing education or healthcare. Migrants can create their profile and receive personalized recommendations for jobs matching their skills, training courses to improve their personal or professional skills or even information on opportunities to learn a language. IMMERSE is also intended for service providers and NGOs who can create their professional profile, select the services that fit their expertise and provide ther services by using IMMERSE as an intermediary. IMMERSE helps you look for volunteering opportunities to contribute and support the work of service providers.

# Key issues

Ultimately, exploitation and sustainability rest on the IMMERSE platform being relevant, accessible and reliable.

## Relevance

- Responsive to needs in place and time
- Contains the 'right' information
- Allows for some flexibility
- Balance between consistency and customization
- Ensures value added

# Accessibility

- Robust but appropriate (= manageable and accessible) technical infrastructure
- Responsiveness on different types of devices and operating systems
- Easy to use (intuitive) interface (incl. continuous UX assessment)
- Multiple languages (incl. auto-translation tools)
- User capacity building

# Reliability

- Credibility of content
- Quality assurance
- Iterative improvement (content, technical)
- Administration/longevity, incl. IPR, licensing and fees
- Follow-up funding for reaching maturity
- Follow-up policies for supporting the uptake
- Provision of guides and manuals (research, technical, ethical)
